EXPERIENCE

DREXEL UNIVERSITY - EAM211: Concert App

Philadelphia, PA

UI/UX Designer

September 2025 – December 2025

- Designed a concert discovery app in Figma featuring live event information based on user location and preferences.
- Conducted user surveys and usability testing to refine interface flow, accessibility, and real-time update features.
- Applied SWOT and PESTLE analyses to inform design strategy and align with user and market needs.
- Focused on responsive design, clear navigation, and intuitive visuals to enhance overall user experience.

HACK4IMPACT - Drexel University Chapter

Philadelphia, PA

UI/UX Designer

May 2025 – June 2025

- Contributed to a nonprofit web project through Hack4Impact, supporting the design team with interface feedback and implementation.
- Collaborated with fellow designers to refine layouts, improve usability, and ensure visual consistency.
- Assisted in Figma prototyping and design system updates to align with project goals and accessibility standards.

CODED BY: - Tech & Innovation Internship

Philadelphia, PA

UI/UX Intern

June 2024 – August 2024

- Designed and prototyped Safe Plate, an allergen-friendly restaurant finder app, during the Tech & Innovation Internship program.
- Conducted user research and usability testing to identify pain points and refine the app's navigation and accessibility.
- Built responsive prototypes in Figma, emphasizing WCAG accessibility, clear visual hierarchy, and consistent design systems.
- Presented design solutions and product rationale through pitch decks and team reviews.

ACTIVITIES

PHILADELPHIA FUTURES

Philadelphia, PA

Sponsor-A-Scholar Student

October 2018 – Present

- Selected for a competitive college-access and mentorship program supporting first-generation college students.
- Participated in academic enrichment, college readiness workshops, and career development mentorship.
- Engaged with mentors and program sponsors to foster professional growth and strengthen academic goals.
